## E-LynX<sup>™</sup> Vehicular

MCTR-7200MP-VS50 Single Channel Vehicular Radio

### Multi-band, multi-waveform vehicular SDR

- Extended networking coverage using robust and unique multi-hop concurrent flooding techniques
- Robust design for harsh combat conditions
- Simultaneous multiple voice sessions along with data and video services
- · Supports all interfaces required in modern combat systems
- Simple and intuitive user interface using icon-based color display
- Embedded IP router supporting standard IP routing protocols
- VOIP and analog voice interface support
- Embedded GPS supporting continuous high resolution Blue Force Tracking capabilities
- GPS-independent synchronization

# E-LynX<sup>TM</sup> Vehicular MCTR-7200MP-VS50 Single Channel Vehicular Radio

### Multi-band, multi-waveform vehicular SDR

Elbit Systems' E-LynX<sup>™</sup> 7200MP-VS50 is a multi-band, multi-waveform and multi-role tactical single fit vehicular SDR, designed specifically to support land and maritime combat forces over any terrain type. The radio operates in VHF and UHF bands continuously with optional L Band coverage. Featuring GPS-independent synchronization for all operating modes, including anti-jamming, this future-proof 50W vehicular SDR offers seamless communications and situational awareness, while utilizing unprecedented immunity (ECCM) and communications security (COMSEC) for a variety of missions and applications. Combat-proven mobile ad-hoc networking (MANET)

#### **Technical Specifications**

General		
Frequency Range	30-512MHz	
Architecture	1.0-1.8 GHz (Optional) SCA 2.2.2	
Networking	Multi-hop Mobile Ad-Hoc IP Networking (MANET) implementation via hybrid technology: concurrent flooding and store & forward	
Preset Channels	100 per waveform	
Operation	<ul><li> 2.8" graphic color display</li><li> Cellular-like icon-based operation</li></ul>	
Features		
Voice	<ul> <li>Analog: F3E, STANAG 4204 Digital: 2.4 &amp; 4.8 kbps Vocoders</li> <li>VoIP support</li> <li>Multiple concurrent voice-sessions in all waveforms</li> </ul>	
Data	IP Layer 2/Layer 3 support	
GPS	<ul> <li>Internal receiver</li> <li>Auto/manual location report</li> </ul>	
Embedded Applications	<ul> <li>Blue Force Tracking (BFT)</li> <li>Visual network-topology</li> <li>Network monitoring</li> </ul>	
Interface and Management		
Interfaces	Ethernet, RS-232, Analog Multiple antenna ports	
Network Management	NMS interfaces support using SNMP-v3	
Waveforms		
Bandwidth	25KHz, 1MHz, (50khz, 500khz, 2MHz, 5MHz are optional)	
Modulation	FM, BPSK, GMSK, PSK, QAM	

provides continuous IP connectivity, while automatic self-forming, self-healing, routing and relay capabilities dramatically extends the E-LynX's™ reach over harsh battlefield conditions, ensuring no single point of failure. The E-LynX™ 7200MP-VS50 supports narrow band tactical waveforms as well as high data rate wide band waveforms, providing a dynamic solution adapted to any terrain or mission. As a modular expansion of the E-LynX™ 7200MP with extended the communication range while maintaining dismounted operational capabilities, the E-LynX™ 7200MP-VS50 is a true force multiplier, providing a decisive advantage on the battlefield.
