

XACT *nv36*

Enhanced Image Intensifying Night Vision System

The XACT *nv36* binocular was designed by operators for operators.

The system provides versatile, enhanced night vision capability for ground forces and law enforcement operations.

Superior High-Precision Optics

The XACT *nv36* is the result of a 'no-compromise approach', where performance is not sacrificed for convenience.

The system provides operational superiority in dark, challenging environments.

XACT nv36

Exceptional Performance for Multi-mission Tactical Advantage

Unique design for head or helmet mounting, enabling maximal operational comfort

Comfortable, one-hand operation

MIL-STD ruggedized aluminium body, suitable for operation in rough environments

Lightweight design and low silhouette, reduced neck stress

Fully compatible with common, in-service helmets

Optic channels can be flipped up or away separately and independently, featuring unique automatic shut-off mechanism

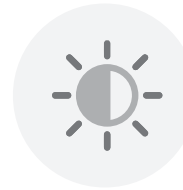

XACT nv36 offers significant improvement over traditional devices:

Technical Specifications

Configuration	Binocular
Optical magnification	X1
Image intensifier tube	18mm, auto-gated
FOV	47° / 40°
Weight	≤540 gr (47° FOV)
Focus range	20cm to infinity
Eye relief	25mm
Diopter adjustment, Fixed Configuration*	-2.5 to +2
Integrated IR illuminator	Yes
Power source	Single 1.5V AA (Alkaline)/3.6V (Lithium) batteries

* Also available in adjustable configuration, -6 to +2 diopter

Available Accessories:

- Adjustable helmet adapter
- External battery pack
- Counterweights
- Demist shields
- Sacrificial windows
- Cleaning kit
- Operator manual
- Hard transport case and carrying pouch
