

Elbit Systems Awarded a Contract to Provide Satellite-On-the-Move Systems to the IMOD

May 8, 2017

HAIFA, Israel, May 8, 2017 /PRNewswire/ --

Elbit Systems Ltd. (NASDAQ: ESLT; TASE: ESLT) ("Elbit Systems") has announced today that it was awarded a contract to provide the Israeli Ministry of Defense (IMOD) with dozens of satellite-on-the-move (SOTM) systems. The contract is in an amount that is not material to Elbit Systems and will be performed over a two-year period.

The ELSAT 2100 SOTM family of systems allows high data rate broadband capabilities to be available to land vehicles on the move. The systems can be installed on a variety of platforms and are unique in their small footprint and its advanced tracking capabilities, providing seamless communication even in difficult terrain. This solution allows on-the-move data communication anywhere, anytime, based on utilizing various communication satellites.

Yehuda (Udi) Vered, General Manager of Elbit Systems Land and C4I Division, commented: "The SOTM contract is an important milestone in our military communication activity on the whole and in the satellite communication activity in particular. The Israeli Defense Forces is an innovative technologically advanced military, and I trust that additional customers will follow and select our systems. The modern battlefield requires very reliable capabilities of high rate data transfer anytime, anywhere, and our SOTM communication solution meets this requirement."

About Elbit Systems

Elbit Systems Ltd. is an international high technology company engaged in a wide range of defense, homeland security and commercial programs throughout the world. The Company, which includes Elbit Systems and its subsidiaries, operates in the areas of aerospace, land and naval systems, command, control, communications, computers, intelligence surveillance and reconnaissance ("C4ISR"), unmanned aircraft systems, advanced electro-optics, electro-optic space systems, EW suites, signal intelligence systems, data links and communications systems, radios and cyber-based systems. This press release contains forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended) regarding Elbit Systems Ltd. and/or its subsidiaries (collectively the Company), to the extent such statements do not relate to historical or current fact. Forward-looking statements are based on management's expectations, estimates, projections and assumptions. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results, performance and trends may differ materially from these forward-looking statements due to a variety of factors, including, without limitation: scope and length of customer contracts; governmental regulations and approvals; changes in governmental budgeting priorities; general market, political and economic conditions in the countries in which the Company operates or sells, including Israel and the United States among others; differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts; and the outcome of legal and/or regulatory proceedings. The factors listed above are not all-inclusive, and further information is contained in Elbit Systems Ltd.'s latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission. All forward-looking statements speak only as of the date of this release. The Company does not undertake to update its forward-looking statements.
