# M200 TP-T 30x173mm

## 30mm Traced Training cartridge

### Operational capabilities

The M200 is a Training Practice cartridge with Tracer (TP-T). It consists of an inert projectile with a tracer at the rear. The M200 is an ideal practice solution suitable for ground and shipboard applications. The affordable training cartridge is ballistically matched to the high explosive HE-T operational cartridge and delivers the same level of accuracy, up to 3,000m. The M200 is capable of penetrating light armored vehicles (LAVs).

### Technical Specifications

General	
Cartridge weight / length	670g / 290mm
Projectile weight / length	360g / 139mm
Propellant weight (single base)	160g
Muzzle velocity	1,100 m/sec
Chamber pressure	380 MPa
Accuracy (Trp.)	0.4x0.4 mils
Trace time	5 sec.
Temperature limits: Firing Storage	-46°C / +63°C -54°C / +71°C
Hazard class	1.3C UN0417
