Safety

Elbit Systems™

Aerospace

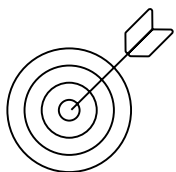

A Holistic Approach to Cutting-Edge Innovations

As the world's leading expert in military aircraft solutions, Elbit Systems combines advanced technologies with market-proven experience, to provide customers with advanced military rotary wing solutions.

With vast experience on both eastern and western platforms, Elbit Systems solutions are installed on dozens of helicopter models, in thousands of units, with millions of accumulated operational flight hours. Cited for superior aircrew and platform operational effectiveness, and flight safety, Elbit's tailored, modular, advanced rotary wing solutions redefine innovation in terms of utility, attack and multi-role helicopters.

Experience & Expertise that Offer Flight Efficiency and Safety:

Improved Operational Effectiveness & Lethality

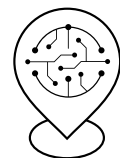

Train as you Fight

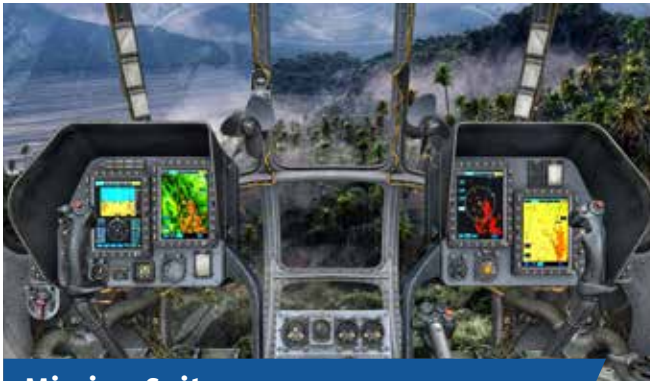

Increased Survivability

Agile Introduction of New Capabilities

Reduced Pilot Workload

Mission Suites

Attack Capabilities

Integrating advanced weapon systems, munition management and various payloads

Combat Search & Rescue (CSAR)

Mission management, search planning, SAR slaving options, electro-optical payloads

Marine Configurations

Surface and sub warfare

Weapon Solutions

Advanced Weapon Integration

- Guided missiles and rockets
- Electro-optical targeting systems
- Gun pod

Accuracy & Lethality

- Continuous Computed Impact Point (CCIP) calculations

Full Multi-Role Conversion Experience

Intuitive, Advanced HMI

Degraded Visual Environment - (DVE)

DVE - 24/7 Capabilities

- Advanced sensor solutions
- See-through, augmented vision (night/weather)
- Satellite image modes

Head-Up Eyes-Out All-Flight Solution

- Helmet Mounted Display (HMD) systems
- 3-D augmented reality of obstacles
- Synthetic Visual System (SVS) applications
- Low visibility landing aids

Day & Night capabilities

Network Centric Warfare Capabilities

Aerial Battlespace Management (ABSM)

Common Operational Picture (COP)

- Software-Defined Radio (SDR - DataLink)
- Air-to-air & air-to-ground networking

Modular and Flexible

- Airborne applications
- Ground command
- Air traffic control
- Multiple integration levels

Rotary Wing Solutions

Our Advanced Capabilities - Your Benefits

Elbit Systems Ltd. is an international high-technology company engaged in a wide range of defense, homeland security and commercial programs throughout the world. The Company, which includes Elbit Systems and its subsidiaries, operates in the areas of aerospace, land and naval systems, command, control, communications, computers, intelligence surveillance and reconnaissance ("C4ISR"), unmanned aircraft systems, advanced electro-optics, electro-optic space systems, EW suites, signal intelligence systems, data links and communications systems, radios and cyber-based systems. The Company also focuses on the upgrading of existing platforms, developing new technologies for defense, homeland security and commercial applications, providing a range of support, including training and simulation systems.

Upgrades of Eastern and Western Platforms

Elbit Systems Ltd.
