This presentation, reference to which herein includes information that may be provided by Elbit Systems Ltd. ("Elbit systems", and collectively with any or all of its subsidiaries, the "Company") orally or in writing in connection therewith, is provided for general information only, and should not be relied upon for making any investment decision. By attending or viewing this presentation, each attendee ("Attendee") agrees that he or she (i) has read this disclaimer, (ii) is bound by the restrictions set out herein, (iii) is permitted, in accordance with all applicable laws, to receive such information, (iv) is solely responsible for his or her own assessment of the business and financial position of the Company and (v) will conduct his or her own analysis and be solely responsible for forming the Attendee's view of the potential future performance of the Company's business. This presentation does not constitute, is not intended to be, and should not be construed as a recommendation, regarding any securities nor part of any offer, or the solicitation of any offer, to buy, subscribe for or sell any securities of the Company, and nothing in this presentation will in any way constitute or form part of any legal agreement or be relied upon in connection with any contract, commitment or investment decision. Nothing in this presentation constitutes investment advice or any recommendations that may be contained herein have not been based upon a consideration of the investment objectives, financial situation or particular needs of any specific Attendee. No representation, warranty or undertaking, express or implied, is given by the Company and/or its respective directors, officers, employees, agents, representatives and/or advisers as or in relation to the accuracy, completeness or sufficiency of the information contained in this presentation or as to the reasonableness of any assumption contained therein. To the maximum extent permitted by law, the Company and its respective directors, officers, employees, agents, representatives and/or advisers expressly disclaim any and all liability that may arise from any use of this presentation, including any errors or omissions relating to the presentation.

The information in this presentation is not intended to replace the need to review Elbit Systems' filings with the Israel Securities Authority ("ISA") and the U.S. Securities and Exchange Commission ("SEC"), including without limitation its annual report on Form 20-F, prior to making any investment in Elbit Systems' securities. In case of any inconsistencies between the information provided in this presentation and Elbit Systems' filings, the latter will prevail.

This presentation may contain forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Israeli Securities Law, 1968) regarding the Company, to the extent such statements do not relate to historical or current facts. Forward-looking statements are based on management's current expectations, estimates, projections and assumptions about future events. Forward looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions about the Company, which are difficult to predict, including projections of the Company's future financial results, its anticipated growth strategies and anticipated trends in its business. Therefore, actual future results, performance and trends may differ materially from these forward looking statements due to a variety of factors. Further information is contained in Elbit Systems' annual report on Form 20-F. All forward looking statements speak only as of the date of this presentation. Although the Company believes the expectations reflected in the forward-looking statements contained herein are reasonable, it cannot guarantee future results, level of activity, performance or achievements.

In case of any inconsistency between the management review in Hebrew and the English simultaneous translation, the former will prevail.

## Non-GAAP Financial Data

Non-GAAP financial data is presented to enable investors to have additional information on our business performance as well as a further basis for periodical comparisons and trends relating to our financial results. We believe such data provides useful information to investors by facilitating more meaningful comparisons of our financial results over time. Such non-GAAP information is used by our management to make strategic decisions, forecast future results and evaluate our current performance. However, investors are cautioned that, unlike financial measures prepared in accordance with GAAP, non-GAAP measures may not be comparable with the calculation of similar measures for other companies.

The non-GAAP financial data below includes reconciliation adjustments regarding non-GAAP gross profit, operating income, net income and diluted EPS. In arriving at non-GAAP presentations, companies generally factor out items such as those that have a non-recurring impact on the income statements, various non-cash items, including significant exchange rate differences, significant effects of retroactive tax legislation, changes in accounting guidance and other items and financial transactions not considered to be part of regular ongoing business, which, in management's judgment, are items that are considered to be outside the review of core operating results. In our non-GAAP presentation, we made certain adjustments as indicated in the table below.

These non-GAAP measures are not based on any comprehensive set of accounting rules or principles. We believe that non-GAAP measures have limitations in that they do not reflect all of the amounts associated with our results of operations, as determined in accordance with GAAP, and that these measures should only be used to evaluate our results of operations in conjunction with the corresponding GAAP measures. Investors should consider non-GAAP financial measures in addition to, and not as replacements for or superior to, measures of financial performance prepared in accordance with GAAP.
